Hakkımızda

1990 yılında duroplast yer sifonu üretimiyle iş hayatına başlayan firmamız, 1991 yılında Türkiye'de bir ilk olarak plastik pimaş kelepçeyi de ürün gamına eklemiştir. Daha sonra piyasadan gelen talepler doğrultusunda vitrifiye montaj vidaları, flexible bağlantı hortumlarını da üretmeye başlayan firmamız, 1992 yılında duroplast klozet kapağını da ürün gamına eklemiştir.

1996 yılında aldığı kararla, diğer konulardaki faaliyetlerini sonlandırıp duroplast klozet kapağı konusunda uzmanlaşmayı kendisine hedef belirlemiştir.

Her geçen yıl üretim kapasitesini arttırarak yıllık 500.000 adet'e kadar çıkmıştır. Gerekli kalite standartlarını sağlayabilmek için 2010 yılından itibaren dışarıya olan bağımlılığını azaltarak, önce metal işleme tesisini kurmuş daha sonra plastik parçaların imalatı için plastik atölyesini bünyesine katmıştır.

Uzman kadrosu, 30 yılı aşkın tecrübesi ve tam/yarı otomatik bilgisayar kontrollü makine parkuruyla minimum hata prensibiyle çalışmayı kendine hedef belirlemiştir.

About us

Our company started business in 1990 by producing duroplast floor drains. In 1991 our company added plastic drain pipe clamps to it's production range as the first producer in Turkey.

Upon market demand, our company started to produce sanitary ware mounting bolts and flexible connection hoses in the next years. By the year 1992, we added duroplast toilet seats to our product range.

We decided to stop all other activities and aim to specialize in duroplast toilet seats in 1996. Every other year the production capacity has grown and became 500.000 pcs/year. In order to obtain the required quality standards, beginning from 2010, our company first installed metal processing facility and then the plastic facility to produce plastic parts for reducing the dependance in outsourcing.

With expert staff, experience more than 30 years and fully/half automated, computer controlled machine park, our company adapts the principle of working without error.

Üretim

Firma Değerlerimiz

- Devamlı gelişme,
- İnsan, ürün, servis ve sistemlerde düzenli gelişme,
- Üretim prosesinde sürekli inovasyon,
- Estetik, hijyen ve fonksiyonun mükemmel kombinasyonu ile, yüksek dizayn ve konfor standartları sunuyoruz.
- Kalitemizi, üretim prosesimizin her adımını kendi tesisimizde izleyerek sağlıyoruz.
- "ÖGE" KLOZET KAPAKLARI herhangi bir kusuru olmadığından emin olmak için ciddi malzeme testinden geçer.

Our Values

- Sustainable Development ,
- Continually improvement in people, products, services and systems,
- Constant innovations on manufacturing processes,
- We are offering high design and standards of comfort by perfect combination of aesthetics, hygiene and function.
- We ensure our quality by watching every step of our manufacturing process within our own premises.
- "OGE" TOILET SEATS passes through serious material testing to ensure that there are no defects.
